

Dev

Welcome

I am Rolandas Šeputis

About Me

DESIRED POSITION

For the last 3 years and 3 months I have been working in SEB bank as a developer, building WEB loan and leasing calculators and other banking applications. I am seeking a role as an Angular (or Angular + React) front end developer in a big financial, telecommunication or IT company with a permanent full time requirement is that company would have Angular (or Angular + React) stack, which would give me professional growth and development in the field. I am highly motivated and determined towards team and project goals, and I am always learning.
